Bring back Lead Music Accompanist position to 12 month after 5 years
Of reduction to 10 month

SAFAB Use Only	
YES	NO

General Description:

In FY2010, there was a retirement after 27 years in the accompanist position for the Texas A&M Singing Cadets. In the process of rehiring that position a salary study was conducted by TAMU HR Department. The salary was severely under market. We chose to reduce the position to ten months from its current 12 month to reduce the financial impact to the department. Since that time that position has grown and currently manages much more than is being able to be done in the ten months allotted. Since that time Choral Activities has also begun auditions throughout the summer at every New Student Conference. It is a definite need for this position to return to 12 months. The students are not receiving the full benefit of what this position can do in its current state.

Request Type: Full Increase One-Time Partial/Matching

General Questions:

How does this increase impact students, and what motivated this request (needs, strategic planning, etc.)?

This position directly impacts advising and service to students. This position works directly with students every day. This increase is needed to maintain the needs of the students and the overall level of quality program Texas A&M is able to offer to students. The exit and reentry every year in this position is not doing justice to the student needs in this area.

How do other sources of funding (fundraising, sponsorship, reserves, etc.) been considered? Please explain.

No, It is a recurring annual salaried position that was previously funded for 12 months. We are seeking to return it to its previous status.

Generally, what assessment tools will you use to evaluate this program/service?

Service to the students.
