Additional Questions: (to assist the Board when informing the student body about stewardship of the University Advancement Fee)

Briefly, what recent programs/services have been successful? Which need work? Explain.

SHS continually evaluates the quality of its services. Over the last couple of years, SHS implemented on-line appointments and open-access appointment scheduling, which have enabled students to have better access to SHS. Beginning in FY12, SHS initiated electronic filing of insurance to 3rd party insurance providers (those not associated with TAMU sponsored plans). SHS only fills vacant positions when needed and has adjusted its staffing model to maximize efficiency and minimize cost in patient care. Examples include: hiring professional wage staff rather than budgeted staff, hiring student workers rather than budgeted staff, replacing a physical therapist with a dietitian, hiring nursing assistants in place of nurses, and postponing hiring other positions as alternative processes are evaluated. SHS plans to continue its services and invest in those that are of highest priority and eliminate or improve those that may not be the best investments for our students.

SHS continues to refine its marketing efforts for current and prospective students. Efforts include:

- *Working with other departments on campus to co-program health related issues*
- *Improving SHS' presence in social media*
- *Utilizing campus digital signage and TAMU buses for advertising special events*
- *Utilizing the Aggie Health Hut to promote SHS services and health education*

Recent renovations to the Beutel Health center include:

- *Maximized capacity for direct patient care*
- *Enhanced patient flow*
- *Improved privacy for health care*
- *Modified restrooms for ADA compliance*
- *Improved air flow and energy efficiency*

What do you see as your department's financial priorities in the next 3 – 5 years (FY18-FY22)?

- *Increase in medical staff as needed to serve increasing student enrollment*
- *Collaboration with other health and wellness services currently offered on campus*
- *The Beutel Health Center was built in 1973 and expanded in 1986 to accommodate a student population of up to 35,000. Until SHS is able to adequately fund a new health center, we will make prudent investments in maintaining our facility to maximize patient care.*
- *Implement a health insurance funding model, which will charge usual and customary office visit charges to be reimbursed by insurance providers. Note: this type of model will result in an increase in revenue related to office visits, but reduce revenue related to pharmacy and lab charges. Additionally, the student's out of pocket costs for care will increase in this model.*

Additional comments, special considerations, etc.

SHS is an auxiliary and receives no state funding. Our core service of providing health care to students is funded primarily by the Student Health Fee. In addition we earn revenue from fee for service charges i.e., prescriptions, lab tests, etc. Prices for chargeable items are based on our cost and are approved by the Vice President for Student Affairs.
