General Questions

How does this address an important need and/or positively impact students?

The walls in the Forsyth Galleries have not been repainted since it opened in 2012. Some areas on the walls show signs of paint separation (cause unknown) and the current paint color does not show artwork to its best advantage.

What department/Division strategic plan item does this support?

Ensure Future Effectiveness

Please provide data, evidence, and/or input (student faculty, staff, other) you gathered to help you determine the need for additional resources.

Staff have been spot patching and repairing the walls for almost ten years and have determined that a full paint job is necessary to restore the galleries. We have had building maintenance and SSC examine our walls and test spots done to determine how best to address current wall issues and they have submitted a bid for the job.

What actions have you implemented or discontinued internally to address the identified need?

We have been patching and painting ourselves to repair between exhibitions but the entire surface of the walls needs to be done. Additionally, the change in paint color to the same color used at the Stark Galleries will save us money in future bulk paint purchases.

If funding is granted, what metrics will you use to evaluate success of this program/service/operation?

Painting the walls is an investment that will allow us to get by for another 10 years.

Have other sources of funding (fundraising, sponsorship, reserves, etc.) been considered? Please explain.

Due to other major planned purchases (security system, cameras, new light fixtures and bulbs, which are all coming up for replacement we do not have reserve funding to cover this expense at this time.
